PROFILE

Front-end developer with 4+ years shipping digital products at Bloomsbury Publishing and Springer Nature. I've run user research studies, written specs for and managed award-winning digital platforms, and worked hands-on with developers in the production pipeline — now I write the code. Completed The Odin Project full-stack curriculum; targeting front-end roles where product thinking is an asset. Fluent in English and Spanish. Fully remote or open to relocation.

SKILLS

- **Core stack:** JavaScript (ES6+), React, Node.js, HTML5, CSS3, Tailwind
- **Tools and Platforms:** Git / GitHub, Supabase, PostgreSQL, REST APIs, Vite, Jest
- **Design and UX:** Figma, Photoshop and Illustrator, wireframing, user-research (A/B testing, card sorting, focus groups), WCAG accessibility
- **Other:** Jira, Google Analytics, Premiere, Agile principles
- **Languages:** English (Native), Spanish (approx. C1-level), Galician (approx. B1-level)

PROJECTS

Pickup (in development) — TypeScript · React · Supabase · Tailwind

Building because finding casual sports games in my city is time consuming and impractical. A hyperlocal app for discovering and posting pick-up sports games at public venues.

https://github.com/brrrrdy/pickup/

The Weather — JavaScript · OpenWeather API

Fetches and displays live weather data by location. Handles async API calls, dynamic DOM updates, and responsive layout.

https://brrrrdy.github.io/Weather-App/

Admin Dashboard — HTML · CSS · JavaScript · API

Responsive admin dashboard built from a Figma spec. Demonstrates CSS Grid, custom properties, and component-based layout.

https://brrrrdy.github.io/Dashboard/

Personal Portfolio — React · CSS · Vite · API

SPA site showcasing all of my projects and background; fully responsive with accessible markup.

EMPLOYMENT HISTORY

RIBA, AQA, Freelance — **Aug. 2020–present**
Copywriter, AV Editor — *London (UK), remote*

Created multimedia content for flagship industry events at RIBA and AQA. Conducted UX studies to inform digital content strategy. Supported Spanish–English translation and copy-editing of academic texts.

Colegio Plurilingüe Carmelitas, Freelance — **Jan. 2018–present**
English Teacher — *Ourense (ES), remote*

Planned and delivered curriculum-aligned English lessons to students aged 5-50 in both classroom and private tutoring settings, both online and in-person at schools.

Bloomsbury Publishing — **Oct. 2016–Nov. 2017**
Product Manager — *London (UK)*

Managed three digital products—Bloomsbury Popular Music, Bloomsbury Collections, and Bloomsbury Architecture Library:

- **UX Research:** Ran user research studies using focus groups, A/B tests, card sorting, and analytics to shape product requirements and inform stakeholder decisions.
- **Product Development:** Produced prototype wireframes and interactive mockups; worked directly with designers and developers to deliver against UCD principles and WCAG standards.
- **Testing & Delivery:** Led user acceptance testing and coordinated scheduled content updates and feature releases across platforms.
- **New Product Strategy:** Contributed to new product strategy through market research, competitive analysis, and business case development.

Springer Nature **Jan. 2014–Oct. 2016**
Research Editor | Jan. 2015 – Oct. 2016 *(Assistant Research Editor Jan 2014 – Jan. 2015)* *London (UK)*
Managed editorial production and digital development for flagship reference titles including The Statesman's Yearbook, overseeing CMS development, online strategy, and print/digital content workflows.

BBC, The Independent **2011–2013**
Internships *London (UK)*

EDUCATION & COURSES

King's College London **2009–2012**
B.A Religion, Philosophy and Ethics *London (UK)*
2:1 (Dissertation: Religion and Social Welfare – Religious, Political, and Ethical Questions). Multimedia Editor (London Student Newspaper), Presenter (KCL Radio).

WebCredible **2016–2017**
Fundamentals of User Experience · Foundation to Visual Web and Interface Design *London (UK)*

The Odin Project **2024–2026**
Full-Stack Web Development (React Pathway) *Remote*
Comprehensive self-directed curriculum covering JavaScript, React, Node.js, databases, and deployment. Completed a series of progressively complex projects from DOM manipulation to full-stack apps.

HOBBIES & INTERESTS

Miniature painting, basketball, pádel, football, practical electronics, history, languages, learning, travelling, music and looking after my cat.
