PROFILE

Full-stack developer with a background in digital product management and UX research. Managed and shipped digital publishing platforms at Bloomsbury Publishing; now applying that user-centred mindset to writing clean, maintainable code. Bachelor's degree from King's College London, completed The Odin Project full-stack curriculum and currently looking for front-end roles. Fluent in English and Spanish. Open to both fully remote and relocating.

SKILLS

- **Core stack:** JavaScript (ES6+), React, Node.js, HTML5, CSS3, Tailwind
- **Tools and Platforms:** Git / GitHub, Supabase, PostgreSQL, REST APIs, Vite, Jest
- **Design and UX:** Figma, Photoshop and Illustrator, wireframing, user-research (A/B testing, card sorting, focus groups), WCAG accessibility
- **Other:** Jira, Google Analytics, Premiere
- **Languages:** English (Native), Spanish (approx. C1-level), Galician (approx. B1-level)

PROJECTS SPOTLIGHT

pickup — React · Supabase · Leaflet / OpenStreetMap
Hyperlocal web app for finding casual pick-up sports games at public venues. Features real-time game listings, interactive map with seeded local venues, user-submitted locations with community trust moderation, and a game-rating system. Initially scoped to Ourense, designed to scale.
https://github.com/tomalvarez/pickup

The Weather — JavaScript · OpenWeather API
Fetches and displays live weather data by location. Handles async API calls, dynamic DOM updates, and responsive layout.
https://brrrrdy.github.io/Weather-App/

Admin Dashboard — HTML · CSS · JavaScript · Last.fm API
Responsive admin dashboard built from a Figma spec. Demonstrates CSS Grid, custom properties, and component-based layout.
https://brrrrdy.github.io/Dashboard/

Personal Portfolio — React · Tailwind CSS · Vite
SPA site showcasing all of my projects and background; fully responsive with accessible markup.

EMPLOYMENT HISTORY

Bloomsbury Publishing **Oct. 2016–Nov. 2017**
Product Manager *London (UK)*
Managed three digital products—Bloomsbury Popular Music, Bloomsbury Collections, and Bloomsbury Architecture Library:

- **UX Research:** Ran user research studies using focus groups, A/B tests, card sorting, and analytics to shape product requirements and inform stakeholder decisions.
- **Product Development:** Produced prototype wireframes and interactive mockups; worked directly with designers and developers to deliver against UCD principles and WCAG standards.
- **Testing & Delivery:** Led user acceptance testing and coordinated scheduled content updates and feature releases across platforms.
- **New Product Strategy:** Contributed to new product strategy through market research, competitive analysis, and business case development.

Springer Nature **Jan. 2014–Oct. 2016**
Research Editor | Jan. 2015 – Oct. 2016 *(Assistant Research Editor Jan 2014 – Jan. 2015)* *London (UK)*
Managed editorial production and digital development for flagship reference titles including The Statesman's Yearbook, overseeing CMS development, online strategy, and print/digital content workflows.

RIBA, AQA, Freelance **Aug. 2020–present**
Copywriter, AV Editor *London (UK), remote*
Created multimedia content for flagship industry events at RIBA and AQA. Conducted UX studies to inform digital content strategy. Supported Spanish–English translation and copy-editing of academic texts.

Colegio Plurilingüe Carmelitas, Freelance **Jan. 2018–present**
English Teacher *Ourense (ES), remote*
Planned and delivered curriculum-aligned English lessons to students aged 5-50 in both classroom and private tutoring settings, both online and in-person at schools.

BBC, The Independent **2011–2013**
Internships *London (UK)*

EDUCATION & COURSES

King's College London **2009–2012**
B.A Religion, Philosophy and Ethics *London (UK)*
2:1 (Dissertation: Religion and Social Welfare – Religious, Political, and Ethical Questions). Multimedia Editor (London Student Newspaper), Presenter (KCL Radio).

The Odin Project **2024–2026**
Full-Stack Web Development (React Pathway) *Remote*
Comprehensive self-directed curriculum covering JavaScript, React, Node.js, databases, and deployment. Completed a series of progressively complex projects from DOM manipulation to full-stack apps.

WebCredible **2016–2017**
Fundamentals of User Experience · Foundation to Visual Web and Interface Design *London (UK)*
