PROFILE

Frontend developer and product manager with experience building award-winning digital products at Bloomsbury Publishing and Springer Nature, now specialising in React, TypeScript, and other front-end technologies. I have a strong background in product management and UX, with a focus on usability, performance, clean, maintainable code and documentation. Completed the Odin Project full-stack JavaScript curriculum. Fluent in English and Spanish.

SKILLS

- **Core stack:** JavaScript (ES6+), TypeScript, React, Node.js, HTML5, CSS3, Tailwind
- **Tools and Platforms:** Git / GitHub (CI/CD via GitHub Pages), Expo, Supabase, PostgreSQL, REST APIs, Vite, Jest
- **Design and UX:** Figma, Photoshop and Illustrator, wireframing, user-research (A/B testing, card sorting, focus groups), WCAG accessibility
- **Other:** Jira, Google Analytics, Premiere, Agile principles
- **Languages:** English (Native), Spanish (approx. C1-level), Galician (approx. B1-level), Portuguese (approx. A2-level).

SELECTED PROJECTS

pickup (in alpha) — React Native, Typescript, Tailwind, Expo, Supabase

A cross-platform app that connects users searching for local, casual, non-competitive ‘pickup’ sports games. I wanted to tie together everything I had learned as a developer whilst creating something I feel passionate about. Currently in early alpha, but rolling out a closed beta within my local sports community soon.

<https://pickup.tomalvarez.xyz>

Personal Portfolio — React · CSS · Vite · API

SPA site showcasing all of my projects and background; fully responsive with accessible markup.

<https://tomalvarez.xyz>

The Weather — JavaScript · OpenWeather API

Fetches and displays live weather data by location. Handles async API calls, dynamic DOM updates, and responsive layout.

<https://brrrrdy.github.io/Weather-App/>

Admin Dashboard — HTML · CSS · JavaScript · API

Responsive admin dashboard built from a Figma spec. Demonstrates CSS Grid, custom properties, and component-based layout.

EMPLOYMENT HISTORY

RIBA, AQA, Freelance

Copywriter, AV Editor

Aug. 2020–present

London (UK), remote

Created multimedia content for flagship industry events at RIBA and AQA. Conducted UX studies to inform digital content strategy. Supported Spanish–English translation and copy-editing of academic texts.

Colegio Plurilingüe Carmelitas, Freelance

English Teacher

Jan. 2018–present

Ourense (ES), remote

Planned and delivered curriculum-aligned English lessons to students aged 5-50 in both classroom and private tutoring settings.

Bloomsbury Publishing

Product Manager

Oct. 2016–Nov. 2017

London (UK)

Managed three digital products—Bloomsbury Popular Music, Bloomsbury Collections, and Bloomsbury Architecture Library:

- **Product Development:** Produced prototype wireframes and interactive mockups; worked directly with stakeholders to deliver against UCD principles and WCAG standards; developed taxonomies for reference products.
- **UX Research:** Ran user research studies using focus groups, A/B tests, card sorting, and analytics to shape product requirements and inform stakeholder decisions.
- **Testing & Delivery:** Led user acceptance testing and coordinated scheduled content updates and feature releases across platforms.
- **New Product Strategy:** Contributed to new product strategy through market research, competitive analysis, and business case development.

Springer Nature
Research Editor | Jan. 2015 – Oct. 2016 (*Assistant Research Editor Jan 2014 – Jan. 2015*)
Managed editorial production and digital development for flagship reference titles including The Statesman’s Yearbook, overseeing CMS and platform development, online strategy, and print/digital content workflows.

Jan. 2014–Oct. 2016
London (UK)

BBC, The Independent
Internships
Worked across news and features desks at The Independent, including Budget coverage, with two pieces published in print and online. Assisted production on the Tom Robinson show at BBC 6Music.

2011–2013
London (UK)

EDUCATION & COURSES

King’s College London
B.A Religion, Philosophy and Ethics
2:1 (Dissertation: Religion and Social Welfare – Religious, Political, and Ethical Questions). Multimedia Editor (London Student Newspaper), Presenter (KCL Radio).

2009–2012
London (UK)

WebCredible
Fundamentals of User Experience · Foundation to Visual Web and Interface Design

2016–2017
London (UK)

The Odin Project
Full-Stack Web Development (React Pathway)
Comprehensive self-directed curriculum covering JavaScript, React, Node.js, databases, and deployment. Completed a series of progressively complex projects from DOM manipulation to full-stack apps.

2024–2026
Remote
